CERTIFICATION

Meta Front-End Developer Professional Certificate
Coursera / Meta
Issued: November 2024

LANGUAGES

English — Professional
Telugu — Native

PROFILE

Frontend developer with five years of experience building accessible React applications, reusable component systems, and reliable automated tests.

EMPLOYMENT HISTORY

Senior Frontend Developer — Harbor Civic Systems
January 2024 – Present
Led a React and TypeScript design-system migration, improved keyboard accessibility, and reduced UI regression defects by 30% with Jest tests.

Frontend Developer — Cedar Commerce Studio
August 2021 – December 2023
Built responsive storefront modules with React, Redux, HTML, and CSS; introduced Vite builds and Git-based review checks.

PROJECTS

Accessible Service Portal
Created reusable React forms with keyboard navigation, focus management, and Jest accessibility checks.

Retail Performance Console
Developed a TypeScript and Redux dashboard with Vite, responsive CSS, and tested state transitions.

EDUCATION

Bachelor of Technology in Information Technology
Coastal Institute of Technology | 2017–2021
